

# HARTFORD WEEKLY HERALD.

JOHN F. BARNES, Editor.  
WEDNESDAY, MARCH 8.

GEN. DON CARLOS BUELL took charge of the Pension Agency at Louisville last Monday.

We return thanks to our Senator, Hon. S. E. Hill for a neatly printed copy of the Governor's message.

If convict labor is to be used, why not Ohio and other countries in this part of the State, secure enough of it to make a few good roads, and let labor applied in this way would not interfere with honest labor, on the contrary, would be a great benefit to all classes.

Mr. GEO. A. BROWNING has purchased the entire outfit and good will of the Louisville Times.

Mr. BROWNING has purchased the entire outfit and good will of the Louisville Times. The Times under its former management was one of our most welcome exchanges. The editor, J. J. Gough, is still with it, from which we feel assured that its high standard as a weekly newspaper will be maintained. Success to the new management.

The Legislature has passed an act paying Warden South his back pay and virtually closing his connection with the penitentiary. Did the Legislature refuse to consider the removal of Warden South by the commissioners, just to get a chance to donate \$2,700 to him for services never performed? It seems so from this last act. Well its the people's money and they are not particular.

"You can keep your record clean." These were the last words of John B. Gough, the grand juror and advocate, in closing his lecture. Young gentlemen this is a good motto, and should be framed of barnyard letters, and hung in your bed chamber, where it will greet you each morning until you can conscientiously stamp upon your conscience. In these words are the embodiment of every thing noble and grand.

The Democrats of Breckenridge, Hancock and Grayson counties allowed their nominee for State Senator to be defeated last August by a Republican, who, it has just been discovered is ineligible to the office. Dr. Byers, is a member of the grand jury, and has conducted a protracted meeting since his election. The State constitution prescribes that no minister shall be a member of the Legislature.—Owensboro Messenger.

ANOTHER triumph for whiskey, result: "Dick Fitzgerald drunk and in jail, George W. Banger stabbed and in bed. Victory perched on its hump. We apprehend that the liquor is legally. As a matter of course, no one would let him have it illegally, or should not. The law permits those having license to let adults, who are not inebriated, nor in the habit of getting drunk, have it. The authorities are, doubtless, posted as to the law and to whom license has been granted and who are dealing in that distasteful of good order. Investigation will disclose the law and out. An applicant, anxious to pay money, and desiring to know if the whiskey has been violated. The inebriate, the man who is in the habit of getting drunk, and who has been allowed to tipple more than is necessary, certainly knows where he got it. As, a matter of course, if, so, he will tell where he got it and the records will show who has license.

What say the authorities; will they take a step to find out? We see it. The people are not to be so easily taken in an investigation to ascertain the legality of the sale of whiskey in these parts.

In the city of Henderson are now sixty saloons which pay a license of \$100 each, an aggregate of \$6,000 per annum. Each saloon is a consumer of the water to the amount of say \$100 or say the city \$6,000. The city receives from the saloons then \$15,000. The question has frequently been asked, what do the prohibitionists propose to substitute for this revenue?—Henderson Journal.

The Journal should have considered its enumeration. The saloons yield a larger, and more varied revenue. The heartbroken mother, the fatherless, weeping wives, starving children, broken laws, but manhood, full jails, crowded penitentiaries, midnight assassinations, unprovoked robberies, licentiousness, public drunkenness, costs of prosecutions, street brawls, illegality, suicide, a stupefied population, the bands of society well-nigh disrupted, honesty, veracity, virtue, morality utterly destroyed, or fearfully prostituted.

Prohibitionists everywhere, in lieu of a few blood-stained thousands of dollars, propose to give, happy homes, noble manhood, law-abiding citizens, well attended churches and schools, chastity, honesty and truth, and the use of policemen, few criminal prosecutions, orderly communities, obedient, and well-cared-for children, industrious fathers, loving and contented wives, intelligence and refinement, a general financial and moral upturn, the permanent compared to which the

# THE SCHOOL QUESTION.

The Legislature seems to be at sea in its dealings with the school question. Ever the astute and progressive Senator Berry is lost in its mazy mazes. Plain, practical measures are abundant, but so are idealistic notions, which if adopted would be perfectly useless.

If the Legislature will deal in a business-like manner with the financial aspect of the case, it will have the work right of itself. Increase the interest-bearing fund, make the interest plus the regular school revenue distributable. To accomplish this increase, put a tax on whisky, beer, wine, brandy—about \$100 might be added, and a fund of \$500,000 could easily be raised in this manner.

R. Y. THOMAS KILLS HIS OWN BILL.

LAST SATURDAY in the Legislature, the bill introduced previously by Hon. R. Y. Thomas, Jr. of Muhlenberg, Mr. Thomas moved to table the amendment, not knowing that a motion to lay an amendment on the table carried the bill with it. The amendment was introduced by Hon. R. Y. Thomas, Jr. of Muhlenberg, Mr. Thomas moved to table the amendment, not knowing that a motion to lay an amendment on the table carried the bill with it.

"It is not the business of the Speaker," said Mr. Thomas, "to instruct the House in its legislative action. We have been here sixty days and ought to know something of it by this time."

Washington News. The United States Senate has passed a bill expelling Henry J. Todd, his keeper of the Kentucky penitentiary, instituted for the removal of the Court of Claims for the refusal of the Court to allow him an interest in the penitentiary since the years 1863 and 1868.

News. Fifty of Louisville and Jeff. of Frankfort, are the lucky Kentucky in the Post-office Inspectorship contest. The announcement of Mr. Puley's appointment was made Monday 22nd. It is known also that the Postmaster General has decided upon Mr. Jeff.

The American Institute of Civil Engineers, a national organization of civil engineers, was organized on February 21st. Over 150 people were present, including many of the foremost thinkers on educational matters. The city received from the saloons then \$15,000. The question has frequently been asked, what do the prohibitionists propose to substitute for this revenue?—Henderson Journal.

It is stated that 75,000 Italian men, women and girls are held in bondage in the United States, and that the number of girls imported for immoral purposes is increasing yearly. Testimony to this effect will be offered before the House Labor Committee, and it will be expected that Italy, high in position in this country, are the men who profit by these people.

The members of the National Educational Association, now in session here, called at the Executive Mansion Friday morning, and were received by the President. The association, at their meeting, heard a paper by Prof. Lowell, of Alabama, on "National Aid to Education." In the discussion which followed, Congressman Willis, of Kentucky, earnestly advocated such action.

The stave factory at this place has resumed business, many people are engaged in the manufacturing of staves and heading. This, of course, gives all branches of business in our little village a boom.

Mr. H. Stafford, of Louisville, is engaged at this place in killing large numbers of whisky barrel staves. On last Friday night, while Mr. Stafford and his employees were at work, one of the staves caught on fire, and for the timely warning of Calvin Taylor, a colored man, who was passing at the time, the destruction would have been very great.

Mr. Stafford and his employees succeeded after an hour of hard labor in subduing the flames. The fire has not been ascertained, but it is believed to be considerable. The citizens are greatly pleased for the success of a regular city company.

Miss Nannie Snyder, who has been visiting the family of Mr. J. B. Root, for several weeks, has returned to her home in Louisville. Miss Nannie is a charming young lady, her visits are always welcomed and her absence has been greatly felt. Those who will soon repeat her visit.

Johnnie Thomas, one of Benj. Thomas, who was very low of pneumonia in last June, followed by an attack of typhoid, was given up by physicians and friends, is we understand, much better, and will probably recover. Best wishes for the success of the HERALD.

THE TIME CHANGED. The Democratic Committee of this county, after leaving the statements of the candidates for Circuit Judge, changed the time of holding the judicial primary election from March 10th, to March 12th. The action of the committee will be found elsewhere in this issue.

# AGENTS WANTED.

The Chance of a Life Time—Big Money for the Conscientious. The greatest work of the season is to be issued soon by Hon. R. Y. Thomas, the talented young member now representing the county of Muhlenberg, in the Kentucky Legislature. Mr. Thomas' standing and reputation as a young man of ability and energy, and his position as the county of Muhlenberg, give the work a boom unlike anything of the kind in this country. The very thought of the work commends it to the wide-awake agent.

Chapter I. How to prepare and introduce a bill, etc., etc.

Chapter II. How to regard amendments to bills, etc., etc.

Chapter III. When to lay amendments on the table, etc., etc.

Chapter IV. The right moment to ask the speaker or chairman of any legislative or deliberative body to instruct the house as to the effect of a motion, etc.

Previous experience not object. Terminate free. Send in your order at once.

STANDSTILL. A Standard boy trapped a hawk that

the people of Hickman county have organized a society for the suppression of horse-stealing.

Clayton Anderson, a colored barber, was found dead in Clay's hair shop in Owensboro last week.

The suspicion is not wanting that Mrs. Lucy Grimes Boyd was murdered instead of having committed suicide.

Hopkinsville will have a religious newspaper. It is for the colored people, and will be edited by Rev. Allen Albright, colored.

AKA Perry, colored, confined in jail at Paducah for house-breaking, attempted suicide by striking himself over the head with a board.

Cod. Dudd, of Calhoun, a man of great nerve. He is about to have a tank established in that town. Editors would have a place for their surplus cash.

Mr. Ben Hackett, of Woodford county, says the fly will not trouble the wheat crop this season.

The Little and Hall families of Harpersburg again in the war path. Robt. Hall has been killed. The Turner and Howard families are also ready for another outbreak.

At Winchester, Ky., on February 22nd last, a lighted cigar caused an explosion of powder which shook the town to its foundation, injuring ten persons.

Dunk Coffey was tried in the city court of Owensboro last Thursday afternoon. He was charged with the murder of John Smith, a colored man, who was killed in the city of Owensboro last Thursday afternoon.

John B. Clay, thirty years of age, medical student, son of Mr. B. Clay, a farmer, was arrested by the police of Louisville last Thursday afternoon.

A hog in Warren county saved the life of a haw which had been attacked by a hawk. The hog being too heavy to be carried by the hawk, it was killed by the hog.

Several good plate-glasses have been found and some have been sold. Different parties in this vicinity have made a collection of plate-glasses, and they will be sold at 25 cents per pair.

Miss Sallie Jones went out to conduct her father's store, at Lynch, last Friday morning. A. C. Cawley killed his apprentice, a colored man, at the store.

Runts—To the wife of E. C. Brown, in the 10th ward, a daughter. Mrs. J. H. Ashby attending midwife.

Runts—To the wife of E. C. Brown, in the 10th ward, a daughter. Mrs. J. H. Ashby attending midwife.

# MAKING CASH.

It is said that such a number of the 220 are actually keeping house, and some of them could entertain an "all-night" party, and still have something to eat. The 220 are actually keeping house, and some of them could entertain an "all-night" party, and still have something to eat.

Mr. Editor, it is estimated that the Court of Claims is not as vigilant in this matter as they should be in scrutinizing this large list and see after all that it should have been otherwise. It does not seem to be going policy for a court to sell her delinquency, but see closely to the collecting of it. The tax paying people are deeply interested in this matter, and necessarily so.

TAXPAYER. A letter from Evansville, Indiana, says a large quantity of tobacco is being brought in Louisville, and shipped to Lexington, Ky., for rebranding.

Mr. J. B. Bell, the largest tobacco dealer in Lexington, Kentucky, is making his principal purchases in the Falls City this year, and says the tobacco can be bought there at a lower price than elsewhere.

The average price paid in Hopkinsville, White, Christian and Union counties last week was \$1 per hundred pounds, while that in Henderson county averaged \$1 per hundred. Great quantities of tobacco are being brought in from the west.

The average price paid in Hopkinsville, White, Christian and Union counties last week was \$1 per hundred pounds, while that in Henderson county averaged \$1 per hundred. Great quantities of tobacco are being brought in from the west.

# BRACEFELDS.

Two men, made from one event and both known to a common cause. General Hancock, the pride of the army; of splendid physique, martial bearing; the oldest and ablest soldier made famous—Gov. Seymour, the old time gentleman, the gay statesman, and a great party.

Both men stand for the Democracy, the one as a soldier, the other as a statesman; a presidential contest dead, both dead almost of the same hour.

There is a remarkable parallel and contrast between these two men. The war period aside both men were patriots; both yielded to the same ambition; both succumbed to the same fate.

Hancock apparently well one day, the next, says the World, "is sinking step by step, like a person descending a pair of stairs."

Governor Seymour, says the Associated Press, has been gradually failing for eight years. Both men, though of entirely different temperament, yield to a common fate.

Hancock's case was discovered by an eminent physician at the very last moment, the beyond help, because of the malignant ulcer in his neck, was a disorder which made living impossible.

Governor Seymour's life for eight years has been feeble, as the associated press says, because of a serious attack of rheumatism some time ago, and his death thereafter has only been a question of time.

Both Hancock and Seymour might have lived, and both might have been recognized the fact that they were each of them victims of a dangerous kidney disorder, and treated themselves successfully, as they might have done by that great scientific specialist, Warner's safe cure.

Well might a well known physician catch the words of the Associated Press, and say: "Hancock's kidneys stopped working. No wonder he died. He had 400 grains of the horrible blood poison, which he could not get out of his system, and he died."

An eminent New York physician says: "Hancock's kidneys stopped working. No wonder he died. He had 400 grains of the horrible blood poison, which he could not get out of his system, and he died."

# PROSPECTS.

During the past few months the demand for the Ad has greatly increased in the country, its popularity being particularly marked in the States of Kentucky, Tennessee and Indiana, causing it to be produced in large quantities in those States.

It is now being produced in large quantities in those States, and is being distributed in all parts of the country.

It is now being produced in large quantities in those States, and is being distributed in all parts of the country.

It is now being produced in large quantities in those States, and is being distributed in all parts of the country.
